The screenshot shows the Springer Link website interface. At the top, there is a navigation bar with the Springer logo and the text "Springer Link". Below this is a search bar with a magnifying glass icon and a settings gear icon. The main content area is divided into several sections:

- Browse by discipline:** A vertical list of disciplines with "Business & Management" highlighted in blue. The list includes: Architecture & Design, Astronomy, Biomedical Sciences, Business & Management, Chemistry, Computer Science, Earth Sciences & Geography, Economics, Education & Language, Energy, Engineering, Environmental Sciences, Food Science & Nutrition, Law, Life Sciences, Materials, and Mathematics.
- Providing researchers with access to millions of scientific documents from journals, books, series, protocols and reference works.** A large text block with a blue and black color scheme.
- Recent Activity:** A section titled "Recent Activity" with a sub-section "What's being read within your organisation". It shows a "Chapter" that was read "1 min ago".
- New books and journals are available every day.** A purple banner with white text.

The browser's address bar shows the URL "http://link.springer.com/". The taskbar at the bottom displays various application icons and the system clock showing "21:48 2013/10/14".

A new measure of accounting quality

Abstract

This study develops a measure of accounting quality based on audit fees. Adopting a neoclassical view of the audit market, we argue that unexplained audit fees should contain information about accounting quality. We find that our measure of unexplained audit fees correlates positively with other empirical measures of quality. We further show that our measure of accounting quality is incrementally predictive of fraud, restatements, and SEC comment letters, controlling for other measures of quality. Overall, we believe that the information in audit fees can be used to provide an alternative measure of a firm's accounting quality.
